2017-2018 Midterms & Report Cards

October 6, 2017

Dear Parents and Guardians:

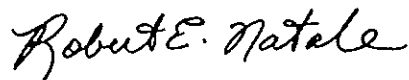

Tuesday, October 3rd marked the middle of Trimester One. In an effort to go paperless and streamline the process of communication, your student's Midterms and Report Cards will not be sent home on paper this year. Since grades are readily available online and updated on a weekly basis, starting with Trimester One Midterms, we are asking that you utilize our PowerSchool Parent Portal to log-in and view both your student's grades and comments from his or her teachers. While grades are always available, Midterms will be accessible for viewing beginning October 16, 2017.

The PowerSchool Parent Portal can be accessed from our Middle School South webpage under the Links tab or directly at: <https://ps.hawthorn73.org/public/>. You will need your username and password for the Parent Portal. This should have been created at your time of registration. Should you have trouble logging in, please contact our office at (847) 990-4100.

After viewing your student's grades and comments, should you have questions, we encourage you and your student to reach out to our staff, who will be more than happy to assist you with any questions.

In the coming weeks and months, we will continue to send reminders in relation to Midterms and Report Cards, as well as how and when to access these documents. Should you have any questions, please let us know.

Sincerely,

Robert Natale
Principal
